

gv GRANDVIEW®

Showing a movie at home is all about getting everyone in on the fun. So having the right screen is important. Whether you are watching your favourite movie, sport, or having fun with a Wii®, a Grandview screen will put you right in the middle of the action.

Grandview's range offers all of the features you would expect, and more. Grandview products are packed full of clever features making installation, integration and use so easy. With a Grandview screen as a part of your projection system you'll know why people love the big images for family entertaining.

Australia's favourite range of projection screens.

GV Fixed Frame Screen

The perfect screen for your home theatre

Would you like a cinema right in your own home? With a Grandview dedicated frame screen, big bright cinema images will soon be keeping everyone entertained. GV frame screens use high quality cinema material, framed stylishly in a black surround.

Available in 16:9 aspect ratio from 1880mm wide right up to 2250mm wide. See www.grandviewscreens.com.au for full product details.

GV Smart Screen

Remote control motorised screens

Like the idea of your screen appearing and disappearing at the press of a button? The Grandview Smart Screen can do just that for you. The IR remote is supplied as standard, but because it's smart you also have the choice of 12V trigger, relay control, RS232, or even a manual override switch. Wall and Ceiling brackets included for easy installation.

Available in 16:9, 16:10, and 4:3 aspect ratios, starting at 1710mm wide all the way up to a massive 4400mm wide.

See www.grandviewscreens.com.au for full product details.

GV Deluxe Manual Pull Down Screen

Roll your screen away

Need to hide your screen away but not wanting a Smart Screen? The Grandview Deluxe Pull Down has some smarts of its own, with a built in decelerator and braking system, this screen retracts steadily and slowly, stopping at the top.

Available in 16:9, 16:10 and 4:3 aspect ratios.

See www.grandviewscreens.com.au for full product details.

GV Projector Mounting Options

For the perfectly placed projector

Once you've got your projector and screen all picked out, you'll need a projector mount to make sure your projector is always in the right spot and ready to go. The Grandview mounts are designed to suit most projectors on the market, and are unobtrusive and will fit into a lounge room or a cinema room.

Low profile and extended drop versions in a choice of black or white are available.

See www.grandviewscreens.com.au for full product details.

View the full range at www.grandviewscreens.com.au. Available from your local AV retailer or call 1300 730 025. The **GV Grandview** range is distributed exclusively in Australia by Herma Technologies.
