

Specifications for LP Morgan CineTheatre Mirage Screen

16:9 Aspect Ratio

2.35:1 Aspect Ratio

Features

- Unique easy slide panels. Panels retract into the frame when watching 2.35:1 content, and then slide out to cover the image area, reducing the aspect ratio to 16:9 when needed.
- 100mm bevelled frame with detailing for strength and to allow for panel storage.
- Frame is finished in Black velvet to provide an absorbent contrast border for the image.
- Screen is supplied flat packed.
- Assembly is simple – screen material is attached with a loop and hook system.
- Unique top and bottom locking bars ensure a straight installation every time
- Matt white, black backing fabric with 1.0 gain
