Specifications for LP Morgan CineTheatre Galleria Eclipse - Plana AT

Features:

- With Horizontal masking raised screen is a full 2.40:1 aspect ratio image.
- With Horizontal masking lowered, screen is a full 16:9 aspect ratio image.
- Plush black velvet frame, headbox and side masking panels for maximum light absorption of any overscan.
- Projection surface is Plana AT. Plana AT is a specially designed woven fabric providing sound transmission patterns similar to high quality speaker grille cloth while only allowing a 6% light loss.
- Masking Mechanism – Super quiet European tubular motor. Cable exits on the audience's right.
- Operation – screens shown above are IR controlled (HEX codes available) with three pin plug, also available in close contact or standard motorised.
- Screen is supplied in two parts – motorised masking, assembled; and frame screen, flat packed. Due to the nature of Plana AT fabric, Herma recommends onsite assembly by a specialist AV installer.
- Wall installation – multi position brackets.
- Custom sizes available – please use the next largest size for pricing.
