

# Specifications for LP Morgan CineTheatre Galleria Curve Screen

## Features

- Recommended for CineTheatre screens above 3000mm image width.
- CineTheatre screens are all built to your requirements. This means that you can choose the exact ratio you require – 2.35:1, 2.37:1, 2.39:1 or 2.40:1.
- The screens shown in the table below are exactly 2.40:1 ratio.
- Curved screens are available in either 9.1m (30ft) or 12.2m (40ft) radius. We recommend the 12.2m (40ft) radius for the sizes shown above.
- Frame – Galleria finished with flocked black velour.
- Attachment method – EzyGrip.
- Wall Installation uses multiple point bracketing.
- Maximum Size – image height of 1930mm – welding of fabric is not recommended.
  - **2.35:1 194" diagonal**
- Screens are delivered flat packed for assembly on site.
